

EcoStampi

GENERAL TECHNICAL INFORMATION

- Ecological food container in paper or cardboard with film.
- Resists temperature from -40°C to 220°C.
- Resists humidity.
- To be used for baking in traditional and micro-wave ovens.
- Can be stored in the freezer. Production, storage, sale and consumption all from the same container.
- No need to treat/grease to facilitate product release after cooking.
- Suitable for sweet and salty cakes and dishes and to production processes currently using traditional metal containers.
- Baking and cooling time reduced by 10-15%. Possibility of personalized sizes.
